

2613 BC - 2494 BC

Pyramid of Djeh

Great Pyramid

775 $\frac{3}{4}$ ft (270 metres) ^{heights} = length of one side

orig height 481 $\frac{3}{5}$ ft

now way 451 $\frac{2}{5}$ ft high

2613 - 2498 BC

SNEFRI was Pharaoh. Began
Dynasty 4. He married the previous Pharaoh
HUNI's daughter HETEP-HERES. She was
the mother of KUTUF (cheops).

He made expedition to Lebanon to fetch
great cedar logs needed for temple doors
and great ships. He journeyed to Sinai for
turquoise. He built 2 pyramids at
DAHSHUR 28 mi north of Memphis - one of them

was the Bent Pyramid (Blunt or rhomboidal)

$54^{\circ}31'$ angle of lower course & $43^{\circ}21'$ for upper courses.

He also built the Red Pyramid. This is the 1st true pyramid - angle = $43^{\circ}36'$ (nmm = $51^{\circ}52'$).

He completed the third pyramid for his predecessor HUNI.

He clearly consolidated the Kingdom. He was able to leave a strong inheritance to his son

KHUFU (Cheops)
